

# POLE VAULT PROTECTION

Introducing a quantum leap forward in Pole Vault protection - a host of products designed to absorb impact several times better than current perimeter pads and vault boxes. SKYDEX™ Smarter Cushioning™ technology has been integrated into a vault plant box to create PV Soft Box™, a truly revolutionary vault box unequaled in performance level. Tested by elite vaulters, PV Soft Box™ looks and performs exactly like a standard steel box, but hidden inside are two layers of SKYDEX™ Smarter Cushioning™ technology designed to provide maximum protection for wayward jumps. PV Soft Box™ is so good vaulters won't notice the difference from a steel box, but they'll be able to jump confidently knowing their pit is SKYDEX Protected™.

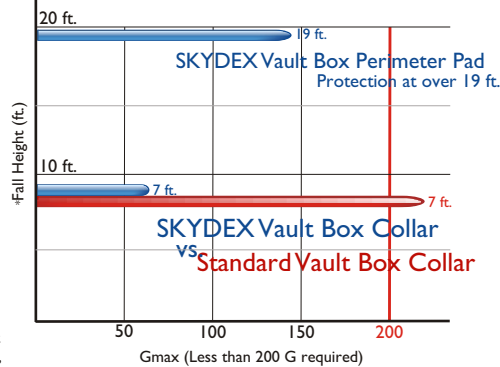

## PV Soft Box™ - SKYDEX Protected™ "A Solution That Really Works"

\*Fall heights of Vault Plant Box materials.

\*Fall height for a surface material is defined as the maximum height from which the metal headform on the testing device, upon impact, yields no more than 200 G's when tested in accordance with ASTM F1292.

Impact testing of perimeter padding samples.

### A GIANT LEAP FORWARD FOR THE SPORT

Pole Vaulting technology has lagged far behind the great strides athletes have made in the sport through the years. Without proper coaching, technique and protective equipment, the sport of Pole Vaulting presents real risk to even the most elite vaulters. SKYDEX Pole Vaulting products present a great leap forward in the evolution of vaulting safety that will allow vaulters of all skill levels to compete aggressively for years to come.

### NEW LEVELS OF PROTECTION

Current vault plant boxes provide no real protection for wayward falls and jumps. PV Soft Box™ is truly an innovative step forward in providing a real and measurable layer of safety in a critical fall zone of the pole vaulting pit. Without question, PV Soft Box™ provides a much higher degree of safety than standard plant boxes.

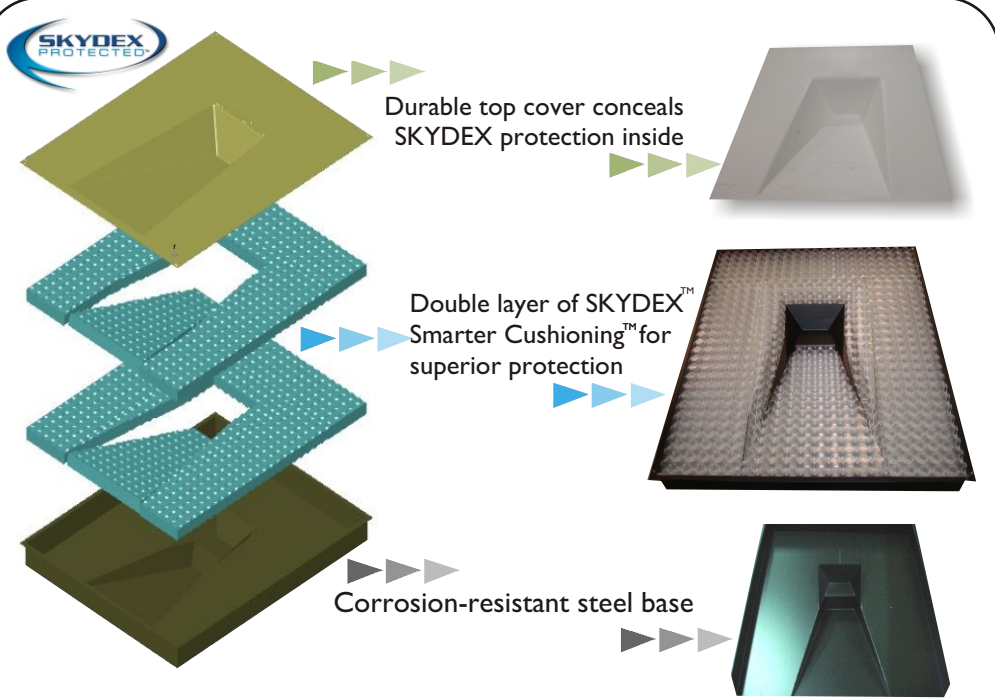

### SKYDEX CRITICAL SAFETY PRODUCTS FOR VAULTING

- Vault Soft Box
- Vault Box Collar
- Pit Extension Pad
